Status of Previous Action Items 1/3

Working Group III Action Items 14 July 2019 - IUGG Montreal Canada

Action Item: Related to QoS standards. Once feedback had been incorporated, a Survey Monkey will be developed to get input from data centers as to the priority order that they should be implemented as QoS standards for the Federated System.
Responsible: IRIS
Status: *Incomplete, to be retained (continued)*

Action Item: Standardisation of the required QA service API including request parameters, and is expected to be coordinated between IRIS and EIDA, those being the two Quality systems in operation at EIDA and IRIS.
Responsible: IRIS and EIDA
Status: *Incomplete, to be retained (continued)*

Status of Previous Action Items 2/3

Action Item: An action was proposed that after the QA service API has been defined, then look towards getting this into SeisComp3 assuming funding can be found.
Responsible: FDSN
Status: *Incomplete, is dependent on definition of API (another action item)*

Action Item: An action was proposed that since the existing prototype data center registry system exists it is ready for broader use. Existing data centres should be solicited to add their entries to the system.
Responsible: Trabant and Quinteros
Status: *Complete. Registry announced via General mailing list August 2019. All known public data centers were encouraged to add their entry and as of August 2021 there are 19 centers registered.*

Status of Previous Action Items 3/3

Action Item: Tim Ahern suggested that any other ideas for new services should be sent to the WG III mailing list.
Responsible: WG III
Status: *Complete. No further ideas for services have been sent to the mailing list.*

Action Item: When an EIDA proposal related to a new authentication system is ready it should be distributed to the WGIII for comments.
Responsible: EIDA
Status: *Incomplete. To be retained. A proposal is likely in the future.*
