

Action Items from WG 3 Meeting

Lisbon, Portugal (IASPEI)

September 3, 2025

Action Item (2023): Create a proposal for an exchange format and service API specification for PSDs.

Responsible: EarthScope and ORFEUS Data Centers

Action Item (2021/2025): Data Center Registry, regarding how to best encourage registrations: Generate a message to be circulated by the FDSN via email, and specifically targeting coordinators in different regions, and potentially being translated into other languages.

Responsible: WG Chair and FDSN Chair

Action Item (2021/2023): Call for an ad hoc committee to investigate the potential for a standard to adopt or develop for JSON output from *fdsnws-event*. In 2023, this action was expanded to include: JSON output from *fdsnws-station*, and potentially other FDSN services.

Responsible: WG 2 and 3 Chairs

Initiated with a limited in scope

Action Item (2023): Call for an ad hoc team to review the accumulated issues, draft changes and propose specification revisions for WG review.

Responsible: WG Chair

Action Item (2025-1): Request if the ISC, or a working group from ISC, is willing to develop a proposal on how “include” parameters should work in *fdsnws-event*. Will reach out to interested parties as needed. This is regarding the *fdsnws-event* issue:
